# PRODUCT DESCRIPTION

## DC-618

The DC-616 has been one of the most popular models within the Duplo range since its launch in 2014. Over the last six years, the market has evolved and so has the competition, so to enable us to keep ahead of the game within the Slitter, Cutter, Creaser market, Duplo is proud to announce the launch of the **DC-618**. A more powerful entry level model, with additional features and significantly improved specifications from the DC-616/616 Pro.

The fully automated DC-618 Slitter/Cutter/Creaser is Duplo's compact yet powerful all-in-one finishing solution designed for today's digital printer. With the ability to process up to 6 slits, 30 cuts and 20 creases in one pass, the DC-618 delivers full-bleed applications up to 23 sheets per minute without the white borders and toner cracking for a clean finish. Produce an array of on-demand applications with ease including 21-Up business cards, gatefold invitations, direct mailers, brochures, book covers, and much more. Bring your finishing in-house!

# PRODUCT HIGHLIGHTS

## IMPROVED PROCESS SPEED

- Greatly improved process speed compared to its predecessor DC-616.
- 297 mm x 210 mm SEF 2 Cuts, 1 Crease runs at approximately 23 sheets/ minute while the DC-616 processed the same job at 10 sheets/ minute.

Job	Slit	Cut	Crease	Perf	Cross Perf	Finished Size	DC-616 SRA3/ m	DC-618 SRA3/ m	DC-646 SRA3/ m	DC-746 SRA3/ m
21-up Business Card	6	14	0	0	0	54 x 85 mm	4.4	9.2	7.5	18
4-up Greeting Card	4	4	2	0	0	148.5 x 210 mm	6.7	12.5	14	30
8-up Postcard	4	8	0	0	0	105 x 148.5 mm	5	12.8	12.5	24
1-up A3 Brochure	2	2	1	0	0	297 x 420 mm	8.5	16	20	35

2 Cut, 1 Crease  
from A4

23 ppm

3 x 7 Business Card

# WIDER RANGE OF PAPER

The DC-618 can process up to 400 gsm sheet.

	DC-616/ DC-616 Pro	DC-618
Paper Weight	110 - 350 gsm	110 - 400 gsm

The new width selectable creaser tool allows customers to choose different widths according to the substrate being run. To create heavier stocks, the lower tool has 2 widths: 1.2 mm and 1.5 mm. The width can be switched by turning around the Upper Tool.

Crease Upper Tool

## REPLACEABLE MODULES

- Different from the other models in the DC range, the DC-616 did not use the replaceable module setup. This could be inconvenient when clearing paper jams.
- Slitters are modularised like the DC-646 and DC-746.
- Slitters modules can be replaced by optional module.

**\*\*The perforation unit is an optional extra, it is not included in the DC-618 as a standard feature\*\***

**DC-616**

**Fixed Slitters**

**DC-618**

# ENHANCED PC CONTROLLER SOFTWARE INTERFACE

Duplo has modernised the look and feel of the PC Controller interface and it's one of the newest features included with the DC-618. With the software loaded on a Windows PC (sold separately), both new and experienced operators can program jobs with ease, make quick adjustments, and save an unlimited number of jobs onto the hard drive for instant changeovers. Operators can alternatively use the colour LCD control panel for set up and use it to save up to 250 jobs onto the built-in memory.

- User interface has been completely re-designed<sup>1</sup>
- More intuitive operation, easy to use and program jobs<sup>2</sup>
- Crease templates are available<sup>3</sup>

# ADDITIONAL FEATURES

## NEW 115 mm LCD COLOUR TOUCH SCREEN PANEL

The DC-618 breaks away from traditional 64 mm panel and adopts a large LCD colour touch screen panel. It offers improved visibility and operation. Can save up to 250 jobs compared to the 80 jobs of the DC-616.

## AUTOMATIC GUTTER DEFLECTORS

Gutter Deflectors are automatically enabled/ disabled, there is no need to engage and disengage them manually.
